

# SMSNA

## CLIMAX REGISTRY SPONSORED BY THE SMSNA

The objective is to create a large registry of men with various ejaculatory/orgasmic dysfunctions for the purposes of improving data on these important topics.

Eligibility: All SMSNA Members who have patients with any of the following:

1. Premature Ejaculation
2. Delayed Ejaculation
3. Anorgasmia/Anejaculation
4. Dysorgasmia/Dysejaculation

*\*No exclusion criteria*

**ENROLL  
TODAY**

**Enrolling patients NOW!**

\*Patient enrollment cards are available upon request at [research@menshealthstudies.com](mailto:research@menshealthstudies.com)

\*\*Digital materials are available online at [www.menshealthstudies.com/climax](http://www.menshealthstudies.com/climax)

Benefits to patients:

1. The knowledge that their participation will result in data that will inform new research and innovation in the treatment of these conditions.
2. Baseline questionnaire (\$50).
3. 7 subsequent questionnaires over a three-year period (\$25 each for a total of \$225).
4. Option for the patients partner to participate (Up to 8 questionnaires at \$25 each or up to \$200).

Benefits to the SMSNA Member:

1. The ability to access the data for publishing.
  - A. If you enroll a minimum of 5 patients, you will have the right to query the data (available 1 year after the initial patient is enrolled - Fall 2025).
2. You may submit requests for specific topics in which to publish. SMSNA (through the registry team and review and approval from the Research Grant Committee) will decide on granting of a topic and those with that topic will have rights to that topic for 1 year. After that time, the topic may be returned and made available for anyone.
  - A. January - June: Eligibility notifications to those with 5 patients or more enrolled in the Registry.
  - B. February 1 - July 1: Query requests are submitted and reviewed.
  - C. March 1 - August 1: Topics are assigned.
